

## Able Tech Ltd. Chooses ZW3D to Achieve Comprehensive Information Technology

Guangzhou--(Business Wire)--[ZW3D](#), one of the world's leading suppliers of advanced CAD/CAM solutions for the manufacturing industry, announced that it was chosen by [Able Tech Industries Ltd.](#), the leading mold manufacturer in Hong Kong, to help them with mold making and plastic parts injection.

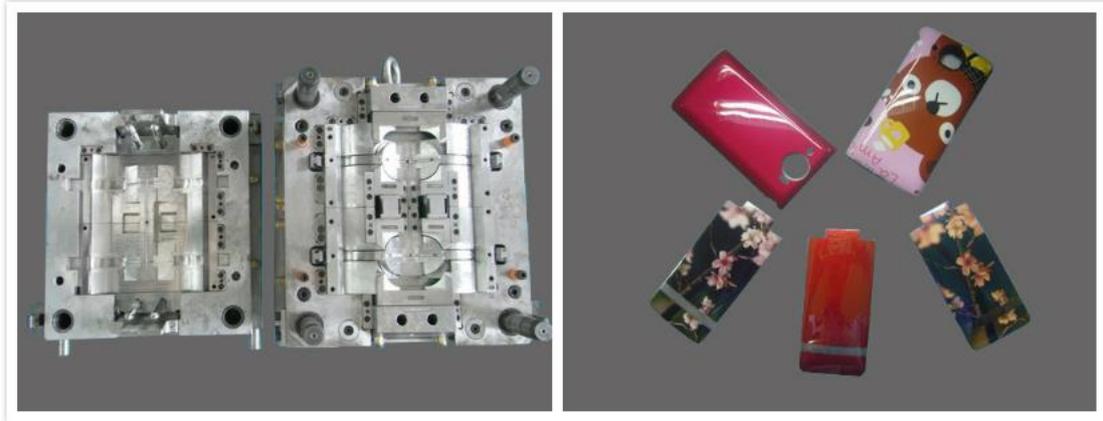

Able Tech Industries Ltd. is a Hong Kong-invested enterprise established in 1999 specializing in mold making and plastic parts injection. It has built an integrated production line covering mold making, injection molding, auto-spray, printing, and secondary operation in mold lining and parts assembly.

### The Need

In order to become more competitive, the mold and parts division of Able Tech are heading for hi-tech products. Therefore, genuine 3D software is urgently needed to ensure information security.

As foreign enterprises are fastidious about appearance, size and other requirements, all the technologies must be applied in accordance with the requirements of manufacturers to deliver perfect products. In this respect, they need an all-in-one CAD/CAM high-quality solution to win the trust of highly demanding enterprises.

## The Solution

Firstly, Able Tech is fully aware of the importance and in urgent need of genuine software. ZW3D is a safe and reliable solution that can meet the demand.

Secondly, compared to the high price of other foreign software, plus a 25%-per-year service fee and about 4-year re-purchase, ZW3D provides lifetime license with voluntary upgrade options, which greatly reduces the cost of CAD software use.

Thirdly, ZW3D technical service responses in a timely manner, sending technical staff to help solve various problems in the process.

“We believe ZW3D can cover the whole production process, including mold design, production, molding, fuel injection, assembly, and IML of parts. We hope ZW3D technology can keep improving and bring the greatest benefits to us,” said Nobutoki, General Manager of Able Tech.

## **About Able Tech**

With 18 years of development, 85% of Able Tech's clients are from Japan and Japanese enterprises in China, such as Panasonic, Daikin, Canon, Sony and other world-renowned customer groups. They can handle English and Japanese both in one case if necessary. Their goal is to challenge your every requirement.

## **About ZW3D CAD/CAM**

[ZW3D](#) is cost-effective CAD/CAM software for 3D modeling, mold design, and machining, which takes engineers from concept to finished product in one easy-to-use, single collaborative environment.
